EDUCATION

Florida International University (FIU)

DEC 2027

Bachelor of Science, Information Technology

- Honors College Member, National Society of Black Engineers (NSBE) member, 2025 Dean's List
- FIU Field Hockey Club and FIU Soccer Club

CERTIFICATIONS

[HashiCorp Certified: Terraform Associate](#)

[AWS Certified Solutions Architect – Associate](#)

TECHNICAL SKILLS

- **Automation, Scripting & IaC:** Python, Bash, PowerShell, Terraform, Ansible
- **Systems, Networking & Cloud:** Linux/Unix (RHEL), TCP/IP, DNS, routing, VPC/subnetting; AWS, Azure
- **Systems Programming:** Operating System fundamentals (process lifecycle, memory management, sockets)
- **CI/CD, DevOps & Containers:** GitHub Actions, Jenkins, Docker, Git
- **Performance & Debugging:** Strong troubleshooting skills, gdb, perf, DTrace, eBPF, SystemTap

EXPERIENCE

Eight Twelve Consulting LLC

Mar 2025 – May 2026

Infrastructure Engineer

Miami, FL

- Administered and optimized Linux systems in production environments, focusing on kernel tuning, low-level performance, and networking.
- Automated server provisioning and configuration management using Ansible, with supporting scripts in Python and Bash.
- Deployed and tested applications in Docker containers; supported orchestration and scaling with Kubernetes.
- Managed cloud infrastructure across AWS and Azure, ensuring secure, scalable, and reliable environments..

Microsoft

July 2026 – Present

Microsoft Student Ambassador

Miami, FL

- Promoted Microsoft Azure, Microsoft 365, and developer tools by guiding peers through Microsoft Learn resources.
- Delivered sessions on cloud computing, GitHub, AI agent automation, and helping students prepare for certifications.
- Collaborated with global Ambassador community to advance best practices in Azure cloud deployment, AI integration, and open-source contributions.

Handshake AI

Oct 2025 – Feb 2026

AI Trainer Fellow (Contract)

Remote

- Conducted detailed evaluation and annotation of large language model outputs, refining datasets to improve accuracy.
- Implemented custom reward systems and adjusted model parameters to enhance reinforcement learning outcomes and improve robustness under distribution shifts by 50%

PROJECTS

Hybrid Cloud Performance Optimization Lab (Azure)

- Built and benchmarked a hybrid infrastructure running latency-sensitive workloads across Linux virtual machines in Microsoft Azure
- Automated provisioning and configuration using Terraform and Ansible, applying kernel tuning for optimized performance
- Implemented network and system monitoring to measure latency, throughput, and CPU utilization.
- Achieved a 30% reduction in network latency and improved workload reliability through kernel and networking optimizations.
